

RAY (a.k.a. TIM) TEITELBAUM

EDUCATION

1975 Carnegie-Mellon University, Ph.D., Computer Science
1964 Massachusetts Institute of Technology, B.S., Mathematics

POSITIONS

1988- Chairman and CEO, GrammaTech, Inc., Ithaca, NY
2010- Professor Emeritus, Department of Computer Science, Cornell University
1981-2010 Associate Professor, Department of Computer Science, Cornell University
1982-83 Visiting Researcher, Institut National de Recherche en Informatique et en Automatique (INRIA), Rocquencourt, France
1979-81 Senior Lecturer, Department of Computer Science, Cornell University
1973-79 Assistant Professor, Department of Computer Science, Cornell University
1968-72 Graduate Student, Department of Computer Science, Carnegie-Mellon University
1965-68 Senior Research Programmer, Physics Department, Columbia University
1964-65 Programmer, Western Electric Corporation

AWARDS AND HONORS

2010 ACM SIGSOFT Retrospective Impact Paper Award for the 1984 paper, "The Synthesizer Generator" co-authored with Dr. Thomas Reps
2003 Recognized as a "Highly Cited Researcher" in the field of Computer Science by the Institute for Scientific Information.
June 1996 Dean's Award for Outstanding Teaching
1996 College of Engineering Teaching Award
May 1986 Dean's Prize for Innovation in Undergraduate Teaching

PH.D. STUDENTS

Aswin van den Berg (1998) [with D. Gries]
Y. Annie Liu (1995)
John Reppy (1992)
John Field (1991)
Allan Zaring (1990)
Stephen Peckham (1990)
William Pugh (1988) [PYI, Packard Fellow]
Roger Hoover (1987)
Susan Horwitz (1985) [PYI]
Thomas Reps (1982) [ACM Doctoral Dissertation Award, NSF PYI, Packard Fellow, Guggenheim Fellow, ACM Fellow]

PUBLICATIONS

Software

GrammaTech, *CodeSonar*, performs a deep static analysis on C/C++ code and identifies many types of bugs. These include null-pointer dereferences, divide-by-zeros, buffer overruns, buffer underruns, double-frees, use-after-frees, and frees of non-heap memory. Various releases, February 2006 to present.

<http://www.grammatech.com/products/codesonar/>

GrammaTech, *CodeSurfer*, a software development, inspection, and maintenance tool that provides dependence-graph browsing and precise interprocedural program slicing for C programmers. Various releases, May 1999 to present.

<http://www.grammatech.com/products/codesurfer/>

GrammaTech, *Ada-ASSURED*, a multi-purpose tool that ensures consistent coding style, prevents syntax errors, and provides numerous productivity features for writing and reviewing code. It features WYSIWYG language-sensitive editing, automatic standards enforcement, high-quality pretty printing, and hypertext browsing in a package that can be integrated with any Ada compiler. Various releases, June 1996 to June 2004.

<http://www.grammatech.com/products/aa/>

Reps, T. and Teitelbaum, T., *The Synthesizer Generator*, Various releases, December 1985 to April 1991 (Cornell); September 1991 to present (GrammaTech). The Synthesizer Generator is a tool for creating language-based environments from formal specifications. To date, it has been licensed, in source code form, for research purposes, to approximately 350 sites worldwide. Roughly half of the sites are in the U.S. and half are overseas; roughly half the sites are academic and half are government or industrial research laboratories. The Synthesizer Generator has been commercialized by GrammaTech, Inc. of Ithaca, NY. Commercial products based on it include Penelope, a formal verification system for Ada, by ORA of Ithaca, NY; Raise, a rigorous approach to industrial software engineering, by CRI of Copenhagen, DK; CRIE, a LOTOS editing tool, U. Twente, Netherlands; and Ada-ASSURED, an Ada language-sensitive editor and program analysis tool, by GrammaTech.

Reps, T., Teitelbaum, T., et al., *The Cornell Program Synthesizer*, Version 1, June 1979; Version 1.02, September 1980; Version 1.03, September 1981 (with T. Reps). The Cornell Program Synthesizer was a programming environment for a small dialect of PL/I that demonstrated the feasibility of Integrated Development Environment (IDES). During its lifetime, it was licensed to 110 sites worldwide and was used by over 20,000 introductory programming students.

PROFESSIONAL ACTIVITIES

Chairman

Doctoral Dissertation Award Committee, ACM, 1992-93.

Member

Doctoral Dissertation Award Committee, ACM, July 1988-94.

Academic Advisory Committee, ADAPSO, October 16-19, 1988, Dallas, TX.

Program Committee, ACM SIGPLAN '88 Compiler Construction Conference, June 20-24, 1988, Atlanta, GA.

Panel, Software Engineering Program, NSF, April 4, 1988, Washington, DC.

NSF Software Engineering Workshop, February 24-26, 1988, Atlanta, GA.

Program Committee, Fifteenth Annual ACM SIGACT/SIGPLAN Symposium on Principles of Programming Languages, January 1987.

Program Committee, ACM SIGPLAN '84 Symposium on Compiler Construction, Montreal, Canada, June, 1984.

Program Committee, International Course on Syntax-Directed Editors, Aussois, France, April 18-22, 1983 (Co-director).

Program Committee, Tenth Annual ACM SIGACT/ SIGPLAN Symposium on Principles of Programming Languages, January 24-26, 1983 (Co-chairman).

Program Committee, ACM SIGPLAN '82 Symposium on Compiler Construction, Boston, MA, June 23-25, 1982.

Delegate, Sino-American Symposium on Computer Software Engineering, Changsha, Peoples Republic of China, April 8-10, 1982.

Program Committee, ACM SIGSOFT/SIGPLAN Software Engineering Symposium on High-Level Debugging, 1981-82.

Panel, Productivity in Education, IEEE COMPCON, Washington, DC, September 15, 1981.
Association for Computing Machinery

Consultant

IBM (1985), AMS/ACM Summer Computer Science Institute Planning Committee (1982), Terak Corp. (1979), U.S. Army Electronics Command (1975), Digital Equipment Corp. (1970).

Reviewer

ACM Computing Surveys, ACM TOPLAS, IEEE Computer, IEEE Software, IEEE Transactions on Software Engineering, MIT Press.

Review of DoD Programming Language Policy, Computer Science and Telecommunications Board, National Research Council (1996).

Referee

NSF, NSERC

CORNELL ACTIVITIES

Member, Computing Policy Committee (1994-1996)
Chairman, Departmental Computer Facilities Committee (1990-91)
Member, 2001 Committee (1990-91)
Member, Committee on Instructional Computer Technologies (1990-91)
Member, Search Committee for Associate Dean for Undergraduate Affairs (1986)
Member, CER Management Committee (1986-89); Chairman (1987-88)
Chairman, Department Chairman Search Committee (1986-87)
Member, Senior Faculty Recruiting Committee (1985-1992); Chairman (1985-87)
Member, Engineering College Resource Allocation Advisory Committee (1985-86)
Member, Engineering College Computing Board (1984-88); Chairman (1987-88)
Member, Computer Science Undergraduate Academic Affairs Committee (1984-85)
Member, University Appeals Panel (1984-89)
Director, Undergraduate Programs in Computer Science (1983-85)
Member, Engineering College Computer Advisory Committee (1983-84)
Member, Committee to Study Computers in Engineering Mathematics (1983-84)
Co-director, Computer Science Summer School Program (1981-82)
Member, University Computing Board subcommittee (1981-82)
Member, Faculty Appeals Board (1981-82)
Director, Computer Science Summer School Program (1979-80)
Member, Engineering College Core Curriculum Committee (1977-82)
Undergraduate program advisor (1977-1995)

CORNELL COURSES TAUGHT

CS100—Introduction to Computer Programming

Spring 2002, 147 students
Fall 2000, 298 students
Fall 1999, 205 students
Fall 1996, 181 students
Fall 1995, 189 students
Fall 1994, 270 students
Fall 1993, 317 students
Fall 1992 and Spring 1993, 478 students
Fall 1985, 645 students
Fall 1984, 758 students
Fall 1983, 749 students
Fall 1981, 725 students
Fall 1980 and Spring 1981, 1176 students
Fall 1979 and Spring 1980, 1020 students
Fall 1978 and Spring 1979, 952 students
Fall 1977, 475 students
Fall 1976, 544 students
Fall 1975, 460 students

CS100S—Introduction to Computer Programming (Honors)

Fall 1987, 45 students
Spring 1987, 10 students

CS211—Computers and Programming

Fall 1990, 85 students

CS212—Modes of Algorithmic Expression

Fall 1988, 42 students

CS314—Introduction to Computer Systems and Organization

Fall 1974, 35 students

Fall 1973, 48 students

CS411—Introduction to Programming Languages

Spring 1988, 23 students

CS412—Translator Writing

Spring 2008, ~30 students

Spring 2007, ~25 students

Spring 2005, 30 students

Spring 1997, 30 students

Spring 1996, 47 students

Spring 1994, 37 students

Spring 1993, 24 students

Spring 1974, 42 students

Spring 1973, 25 students

CS501—Software Engineering

Fall 1998, 36 students

CS612—Advanced Programming Languages and Translator Writing

Spring 1995, 10 students

Spring 1986, 28 students

Spring 1984, 32 students

Spring 1982, 24 students

Spring 1977, 33 students

Spring 1976, 29 students

Spring 1975, 36 students

CS712—Topics in Programming Languages and Systems

Spring 1989, 10 students

Fall 1986, 7 students

Spring 1985, 11 students

CORNELL LECTURES

Computer programming as engineering design. *Cornell College of Engineering Alumni Council*, May 1984.

_____. *Engineering Career Orientation Forum*, February 1984.

The Cornell Program Synthesizer. *Conversations at Cornell*, May 1982.

_____. *Computing in Agriculture, ATC/CALS Faculty Series*, January 6, 1981.

The computer: idiot savant or wunderkind? *Freshman Orientation Program*, August 28, 1980.

From slide rule to microcomputer: how freshmen learn to compute. *Cornell Trustee's Weekend*, October 12, 1979.

Design and implementation of the Cornell Program Synthesizer, a syntax-directed programming environment, with demonstration. *OCS Seminar*, March 28, 1979.

_____. *Department of Computer Science*, December 7, 1978.

Computer programming as engineering communication. *Parents' Weekend*, October 22, 1977.
