

# GRAMMATECH

## CORPORATE BRIEF

GrammaTech is a leading global provider of **application security testing** (AST) solutions used by the world's most security-conscious organizations to detect, measure, analyze and resolve vulnerabilities for software they develop or use- across endpoints, firmware, embedded systems, and mobile devices.

*Over 30 years of experience working closely with the Department of Defense to strengthen software security.*

### CODESonar®

#### Static Application Security Testing (SAST)

- Deep language support for embedded software development
- Broad compiler support
- Built-In DevSecOps integrations

### CODESentry™

#### Binary Software Composition Analysis (SCA)

- Vulnerable open-source in 3<sup>rd</sup>-party software identified
- No requirement for source code
- SBOM generation and reporting

GrammaTech is also a trusted cybersecurity and artificial intelligence research partner for the nation's civil, defense, and intelligence agencies. GrammaTech has corporate headquarters in Bethesda MD, a Research and Development Center in Ithaca NY, and publishes [Shift Left Academy](#), an educational resource for software developers.

# We Protect Everyone. Everywhere There's Code.
